

EconoBlade Pole Assembly

1. Each pole section has a indentation approximately 7" down the pole. If you look closely you can see the indentation marks.

2. Slide each section into the pole until you feel it catch. If it slides too far, you may have the wrong end.

3. Continue to to assemble the poles, smaller diameter to larger diameter.

4. Slide the pole sleeve of the flag onto the pole.

5. Drive the ground assembly into the ground and slide the pole onto the ground mount.
